LOAD OF POTATOES BRINGS \$311.50 FOR LATE MARKETER

While many farmers have been enjoying the good price paid for potatoes this year and brought in loads that gave them a nice roll to take home, it remained for Albert Janacek to bring in the big load of the season so far as the money value was concerned. The load was bought by Alfred Larson at \$7 per hundred and brought Mr. Janacek the net sum of \$311.50. This is perhaps the most money ever paid for a single load of potatoes in this village. Portage County Press, Almond.

Waupun.—Graded school teachers here will receive an average of \$1,238 per high school teacher and an average of \$1,578 next year. The decision of an school board places Waupun in the rank of the smaller cities of the state.

DOG'S WARNING TOO LATE TO SAVE WIFE FROM SUICIDE

Ladysmith, Wis.—A pet dog owned by Henry Milham, prominent resident of this city, led him to the spot where his wife committed suicide, but too late.
When Mr. Milham returned from work his wife was absent. The actions of the dog, that kept pulling at his trousers legs, convinced Mr. Milham that something was wrong. The dog led him to the bridge over the Flambeau river. It was dark, but on reaching a point near the center of the bridge, Mr. Milham saw his wife poised on the railing. She turned, said "Good-by, Henry," and leaped into the river before he could reach her. The body had not been recovered up to Saturday.

ASHLAND TUG GOES TO GET PULP WOOD

[By Associated Press.]
Ashland, May 3.—The recently purchased Canadian tug, Traveler, will leave Ashland for Sullivan State early this week, to join the tug Reliance, John Hunsador, of W. Emerson and Company, which expect to tow 130,000 cords of pulp wood from the eastern shore of Lake Superior this summer. The tug, which until a month ago was the property of the Russell Timber company of Canada, has been purchased by the Lake Superior Paper company, which owns paper mills at three different points in Canada. While the paper company is a Canadian concern, much of the capital behind it is in Dayton, Ohio. During the present winter the company has cut and barked a quantity of pulp wood at Puckett, and also has cut and is now barking on the Michigan side, Batchewana, and Chippewa rivers, nearly 200,000 cords of four foot pulp wood, which will be towed by the Traveler and the other tugs to the Soo.

GATES HALF-SOLE Tires, puncture proof, a 20% over size, guaranteed 5000 miles—costs only one-half as much as a standard make tire. offered at 10% off list during Bargain Week.

How would you solve the story of the Cavendish Murder?

San Francisco.—The army transport Mount Vernon arrived with 5,000 passengers from Vladivostok. They included 300 Czechoslovak soldiers and 300 Teutonic war prisoners being returned to Europe.

In Wisconsin

Appleton.—John Darbel, employed as a laborer at the Kimberly-Clark Paper company, has left for Bavaria to claim an estate left by his father.

Vausen.—While burning rubbish in his yard, an explosion from an unknown cause resulted in the death of Vausen, who lost the sight of his right eye.

Beloit.—Two former Beloit riders and prominent business men died on the same day. Foster and Christopher Matterson.

Keosauqua.—The Holy Rosary academy at Keosauqua may be purchased for use as a county hospital.

In Cross.—Mrs. L. Ladd, 85, one of the earliest settlers of La Crosse county, is dead. She had lived here for nearly 70 years.

Interland.—While Mr. and Mrs. Herbert Klamm were celebrating their silver wedding anniversary, their son, Arthur, and Miss Margaret Thompson were married.

Fond du Lac.—The Fond du Lac Good Lovin' club, composed of 100 men, was organized, adopting the same principles as those which formed the Good Lovin' club of the River. Good Government club.

Keosauqua.—Three Keosauquians are looking for a truck loaded with liquor which mysteriously disappeared after the last of the year. For it they were directed to a house where they said that they could purchase the liquor with no questions asked. They loaded the liquor on the truck. One of the men went into the building and the other two saw two men looking at the car. One of the men said that it did not look just right to them, and then, showing a star, announced that he would take charge of the car.

EXPLAINS CATHOLIC MARRIAGE ATTITUDE

Father French Tells Why Church Doesn't Favor Catholic-Non-Catholic Matrimony.

Two weeks of misapprehension closed at St. Patrick's Catholic church last night. It is termed one of the most successful in the history of the church, by the Rev. Dean Eugene E. Kelly. Rough estimates are that the attendance of men and women, the past week was for the former exclusively, was in excess of 2,000. Throughout the two weeks, the church has been crowded to capacity, at the early morning masses and also at the evening services. The Rev. French and Rev. Fr. Collentine, missionaries from the congregation of the Holy Cross, were in mass yesterday. French preached on matrimony. That the marriage state is of great importance, and more highly than of priest-hood was his assertion. He bitterly denounced the present fast spreading attitude of many toward the marriage bond and divorce and the ease with which temporal separation is obtainable.

Explaining the Catholic church's ban against the marriage of its members to those of other denominations, he said, "The church does not have to be asked why it does not permit its members to be married to members of other faiths? A little illustration is necessary to show the point. Suppose a mother has worked hard all day and at night she is tired. Into the house run the little girl and the mother, who is in no condition to listen to the petty bickerings, charges and denials of her offspring and both for the example of the other, quarrel, and to kill the need of dissension which may be growing in them, as well as to have peace of mind for herself, she sends them off to bed without supper.

Desire for Peace
"Now forget a mother or peacefulness. Likewise it is with mother church. She knows that a rigid ban against inter-marriage would be a useless, for human nature, and dissension would serve to defeat such a law. Accordingly, to have peace, and while she still and always will set her face against inter-marriage, the church recognizes such unions."

Such a marriage, the Rev. French explained, is entirely different from the ceremony performed in and sanctioned by the church. The church, Catholic priests cannot give church blessings to the participants, cannot bless the wedding ring nor their marriage vows. Such a ceremony is performed by the church, but is not permitted to wear his vestments.

All children of the congregations were brought to the altar for the sacrament of Holy Communion. In addition to the sermon last evening there was the organization of a Holy Name society and the reading of baptismal vows. The paper blessing was also extended by the missionaries.

OBITUARY

Mrs. S. A. Smiley
Mrs. S. A. Smiley, a life long resident of this county, passed away at three o'clock yesterday afternoon at her home in Beloit, 423 Portland avenue. The body will be held at 12 o'clock Tuesday afternoon at the home of her daughter, Mrs. B. F. Skinner, 612 Portland avenue, Beloit.

Mrs. Mary Kiddle
Funeral services for Mrs. Mary Kiddle were held at 8 o'clock yesterday afternoon at the home of her daughter, William Howard, 622 Milwaukee avenue. Rev. J. Hart Truesdale officiated.

GO TO Yahn Tire Shop, 15 N. Franklin St. for a 10% discount on Gates Half-Sole Tires during Bargain Week, May 1st to 8th.

PARTY CONVENTIONS IN MANY STATES

(Continued from page 1.)

didate of the La Follette faction will slide in between. It is possible for Senator Lenroot to win against Thompson.

JOHNSON AND WOOD FIGHT IN MARYLAND

Baltimore, Md., May 3.—Senator Hiram W. Johnson and Major General Leonard Wood are fighting at the presidential preferential primary today for the 16 votes of Maryland at the national republican convention. The democrats have no contest and the delegation will go to San Francisco uninstructed.

Congressional primaries also are being held. United States Senator John W. Smith, democratic incumbent, will be renominated without opposition and the governor of Maryland, a clear field for the republican senatorial nomination.

FOR REAL BARGAINS, for real tires, a Gates Half-Sole at 10% off list. Yahn Tire Shop, 15 N. Franklin St.

Evansville Couple Is Married in Jansville

Evansville, May 3.—Miss Elizabeth Miller and C. W. Babcock, both of this city, were married at 8:30 p. m. Saturday at the Congregational parsonage in Jansville. Rev. J. M. Melton, pastor of the Federated church, read the marriage ceremony. Mr. and Mrs. Babcock are both employed by the Evansville, Ind. company of Evansville. Mrs. Babcock plans to continue her work there for a short time. After a brief honeymoon they will go to house-keeping at 317 Alton street, this city.

Regular meeting of Western Star lodge No. 14, P. & A. M. will be held at 7:30 o'clock tomorrow evening in the Masonic temple. Work in the M. M. degree.

Sol Beams Forth on Big Sales Week

The weather man's prediction for Jansville week, the big campaign of the local trade area, at least certainly to form up to noon today and indications at that time were that at least today shoppers would be able to escape the driving hours without the discomfort of umbrellas. Nearly normal temperature reigned, as prophesied. Rain, is predicted for "earliest" the night after which it is to be "followed by fair until the close."

Saturday was a big day, the official opening of the campaign. Balm breezes brought out hundreds. Stores and streets downtown were crowded from early until late. The business district was the scene of the appearance of circus day with the parade behind schedule. Campaign will continue through Saturday.

EXPECT PROMINENT MEN AT TANK MEET

Governor Philipp, Holway, Ball and Whittet, Invited to Guard Banquet Wednesday.

One hundred and twenty-five members of the Tank Corps and several distinguished men from this city and Madison are expected to attend the first banquet of the corps to be held at 7:15 o'clock Wednesday evening at the Myers hotel. Arrangements are being made for an elaborate banquet and program. Among the honor guests who have been invited are Gov. Emanuel Philipp; Adl. Egn. O. Holway, U. S. A.; Justice of the Peace, J. E. Ball; J. A. Welsh; M. O. Mount, president of the Rotary club; Frank Jackman, president of the members of the Chamber of Commerce; J. P. Cullen, president of the Chamber of Commerce; J. A. Craig, president of the Samson Tractor company.

COURT RECESSES, NO "DRY" DECISION

Washington, May 3.—The supreme court recessed today until May 17 without handing down a decision on the constitutionality of the prohibition amendment and the enforcement act.

The supreme court refused to grant the government's request for a rehearing of the anti-liquor case against the United States Steel corporation.

USHER—Wanted. Must be over 17 years of age. Majestic Theatre.

ARMENIA NEAR CRISIS, REDS SEIZE BAKU

Constantinople, May 3.—A seizure of Baku, on the west coast of the Caspian sea, by the bolsheviks on April 23, caused the Georgians to call four additional classes to arm the reds to enter Georgia through Azerbaijan. The capture of Baku makes the Armenia situation more precarious.

A May Dancing Party will be given Tuesday evening in Eagle's hall by the P. A. U. Lucht's Orchestra. The public is invited.

COUNCIL TO TALK PARKING TONIGHT

Discussion of the proposed auto parking ordinance is expected to feature the second regular meeting of the 1920 council at the city hall tonight. Some changes may be made in the ordinance before it is introduced by Alderman J. J. Dulin, chairman of the highway committee.

Routine business and acceptance of monthly reports is expected to occupy considerable time. The council will ask councilmen where they wish to have the new "silent policeman" installed by Charles Enslow.

Prominent Men Regret Wilson's Slam on France

Washington, May 3.—Senator Lodge, Massachusetts, republican leader, read into the senate record today a declaration signed by a number of prominent men expressing regret over the president's recent declaration of war against France, and upon Italy, the declaration of war against Germany.

Wilson's recent statement on the Flume question in which he said "a militaristic party" had come into power in France.

FEAGIN ASSUMES SAMSON POSITION

Claude Feagin, for the past eight months circulation manager of the Gazette, has resigned to take a position in the personnel department of the Samson Tractor plant. More than 20 Gazette carrier boys enjoyed dinner at the Myers hotel Saturday, as a farewell to Mr. Feagin and in celebration of their record of Thursday night—delivering 4,000 papers in the city with no complaints.

How would you solve the story of the Cavendish Murder?

Johnson Forces Can't Raise Money for Recount

New York, May 3.—No effort will be made by the Johnson forces supporting Senator Johnson to meet a similar offer from the forces of Major General Leonard Wood to guarantee the election of a recount of primary ballots in New Jersey. A. C. Joy, assistant eastern manager of Senator Johnson's campaign, announced today.

How would you solve the story of the Cavendish Murder?

ANTI-RUBBISH WAR OPENS WITH RUSH

Citizens in All Sections Respond to Clean-up Call—Children Aid.

Jansville's Clean-up week started off with a rush this morning. Up to 12 o'clock, Miss Joanna Hayes, one of the committee, at the Chamber of Commerce had received calls to the effect that rubbish had been piled at the curb at 24 homes.

The sport for "spotless town" really started Saturday. Throughout the city this was in evidence yesterday with the many piles of rubbish at the curbing. School children, having heard speakers in all schools, Friday, led the attack.

The four of the city by the committee to check up on the law will be made either Thursday or Friday. To eliminate back-tracking, the city teams which have been donated to gather the rubbish will not start their collections before 10 o'clock. Property owners the necessity of telephoning to the Chamber of Commerce that the rubbish has been gathered up and deposited at the curb.

As they will be hauled by city teams at the regular rate of teamsters who make a practice of this work. This is, however, to the business district and to the city officials urge that property owners hire private teams for this work.

Reports are that property owners in the business district are entering in the spirit of the week with vim and vigor.

WANTED: 2 diggers at once. 55c per hour. M. A. Jorsch, 422 Lincoln St.

Express Companies May Continue Consolidation

Washington, May 3.—Investigation into the application of the American Railway Express company for continuance of the wartime consolidation of the Adams Express company, Wells Fargo and Express company, and the United States Express company was ordered today by the interstate commerce commission.

Violent Clash Occurs at Polish National Festival

Berlin, May 3.—A violent collision occurred between Poles and Germans at Rathbor, Silesia, yesterday on the occasion of a Polish national festival. Many people were injured. The Germans stopped a parade of the Poles carrying Polish flags and emblems.

Italian Discovers New Ammonia Production

Rome, May 3.—Production of synthetic ammonia was announced by Dr. Casale, Italian chemist, who says he has solved the problem by special machinery and a chemical reagent of this new invention.

Body of Ridgely Taken To Springfield for Burial

Springfield, Ill., May 3.—The body of William B. Ridgely, comptroller of currency under Presidents McKinley and Roosevelt, arrived here today from Baltimore, Md. Funeral services will be held tomorrow.

Outlaw Rail Strikers Suspended for 6 Months

Springfield, Ill., May 3.—Fifty-two members of the local lodge of the Brotherhood of Railway Trainmen were suspended today for six months following a trial by brotherhood officials for having gone on an unauthorized strike.

Autoist Dies of Injuries Received in Car Collision

Racine, May 3.—Clemm Opinsky, 315 Albert street, Kenosha, died at a hospital here late yesterday as the result of injuries sustained when a street car crashed into the rear of his automobile.

Nouveau Riches: Did you take your medicine this morning? Mr. New Rich: No, I made the household swallow it. What's the use of having a household of servants if we don't make them do the disagreeable works for us!

—Le Rire, Paris.

OPENS SENATE WAR ON THE PROFITEERS

The actual amount of matter earth has been found to be in the moon is only one-fortieth of the earth and in surface area the moon is only one-fortieth of the earth. The actual amount of matter earth has been found to be in the moon is only one-fortieth of the earth and in surface area the moon is only one-fortieth of the earth.

The surface conditions on the moon are of great interest and are quite different from those existing on earth. We are quite certain of the absence of an atmosphere on the moon; no clouds are ever seen over its surface and when the moon does appear as a star from our view it does it in suddenness, which would not be the case if a layer of atmosphere surrounded it, if the latter were present the star would appear gradually because of the partial screening by such a gaseous envelope. Another point of difference is the absence of water. There are no oceans, seas or rivers; everywhere is barren rock or possibly volcanic ash. We shall continue our discussion of the moon next month.

The evening sky contains Jupiter, Saturn and Mars, together with the almost invisible planet Venus now rises only a short time before the sun and will change from a morning star to an evening star almost the entire second half of the year.

The New Terror
Father: Tell me you going to wear that nice red tie Aunt gave you for Christmas?
Bobby: No.
Father: Whatever will she think of that?
Bobby: Well, if you must know, I'm not going to have all the boys calling me "Reddy" for the sake of any woman!

Come to the May Breakfast at the Y. M. C. A. Tuesday 6 a. m. to 9 a. m. Cafeteria style.

Clean-up week begins Next Monday.

Senator Arthur Capper.

Arthur Capper, Republican senator of Kansas, has opened war in the U. S. senate on all profiteers who have reaped the names of many corporations profiteering in a fashion clean, scandalous and shameful.

About the Moon

BY DR. C. S. BRAININ, Of the Columbia University Observatory.

There will be two eclipses in May—a partial eclipse of the sun and a total eclipse of the moon. The former will take place on the 18th, and the latter on the 24th.

The total eclipse of the moon was, however, visible from the Eastern part of America yesterday evening.

If you will consult the table of moon's phases given with the map you will see that the date of the eclipse was also the date for the full moon. This convinces you at once that an eclipse is a phenomenon which is necessarily in connection with the moon's position.

As it is well known, the moon passes around the earth in its orbit, and this is completed once in about 27 1/2 days. When the moon is between us and the sun, in a general way, it is said to be in the "new" position, and we have new moon, because the sun is illuminating only that half of the moon which is turned toward the earth.

At the full moon, the moon is on the opposite side of the earth from the sun, and the sun is illuminating the half of the moon which is turned toward the earth. This is the position in which the moon is seen as a full moon.

If the moon at the time of the full moon phase were exactly on the straight line passing through the earth and sun, it would be thoroughly shielded from the sun's rays by the earth, and we would have an eclipse of the moon.

But the moon is not exactly on the straight line, and this is due to the fact that the lunar orbit lies in a plane which makes an angle of about 5 degrees with the plane of the earth and sun. Thus the moon usually is well enough above the earth-sun line to escape the shadow of the earth.

To the layman and to the naked eye astronomical matters of this kind are of little interest. It is not a large body, having a diameter of about one-fourth that of the earth, and its volume, therefore, the moon is only one-fortieth of the earth and in surface area the moon is only one-fortieth of the earth.

The actual amount of matter earth has been found to be in the moon is only one-fortieth of the earth and in surface area the moon is only one-fortieth of the earth. The actual amount of matter earth has been found to be in the moon is only one-fortieth of the earth and in surface area the moon is only one-fortieth of the earth.

The surface conditions on the moon are of great interest and are quite different from those existing on earth. We are quite certain of the absence of an atmosphere on the moon; no clouds are ever seen over its surface and when the moon does appear as a star from our view it does it in suddenness, which would not be the case if a layer of atmosphere surrounded it, if the latter were present the star would appear gradually because of the partial screening by such a gaseous envelope. Another point of difference is the absence of water. There are no oceans, seas or rivers; everywhere is barren rock or possibly volcanic ash. We shall continue our discussion of the moon next month.

The evening sky contains Jupiter, Saturn and Mars, together with the almost invisible planet Venus now rises only a short time before the sun and will change from a morning star to an evening star almost the entire second half of the year.

Looking Around

OPEN MEMORIAL DAY
Jansville's new playground, backed by Byron Jones, on the Mole property above the old Chautauque grounds on the river bank above the public on Memorial day, according to Mr. Jones, yesterday.

NO MEETING
The fire and police commission will not hold its regular monthly meeting this week. Harry O. Nowlan, secretary, stated today.

Whitewater News

Whitewater, May 3.—Mrs. H. E. Knox, Milwaukee, is visiting Mrs. John Kachel.

Mrs. F. E. West visited at Lake Geneva, Saturday.
John McCartney died at the home of his daughter, Mrs. Frank Hannan, Fort Atkinson, Thursday. He was buried in Hillsdale cemetery Saturday afternoon. Mr. McCartney has lived in Whitewater for several years past. He is survived by his wife.

Fergus MacLachlan, Portage, spent the week-end with friends here.

In the declamatory contest at Elk-horn, Friday evening, Elizabeth Watson of this city, representing the Commercial High school, was given first place. The local school represented in the contest at Fort Atkinson by Margaret Bloodgood, who ranked third there, and Lyle Bryant.

GOVERNOR ADDS A PICK TO OVERALLS

Police were active today investigating a series of four crimes in Jansville over the week-end.

John Parocelli, an innocent-looking youth, shortly being held up on Dodge street shortly after 8 o'clock last night and being relieved of \$1 in cash and his watch. Two suspects were released.

Valuable Residence Haul
The home of Thomas Gaffey, 633 South Franklin street, was entered early Saturday evening. It was reported to police that two women's rings, a gold wrist watch, and a camera was taken. Officers can now identify the stolen property.

Hold-up Puzzles Police
Chief Moore says he is at a loss to account for the hold-up reported by Parocelli who says he was assaulted shortly after 8 o'clock last evening while walking near the postoffice. That it was in the downtown section so early in the evening and no one gave him aid, puzzles police.

"I was walking along when a fellow came up behind me, snuffed a handkerchief in my mouth, threw me down, took my money and ran," said Parocelli. "Although there must have been two of them I cannot identify either. Without reporting it to the police I walked down to the restaurant near the Samson where I had my dinner and then I did it up to me to report it, which I did about 9:30."

Talked with "Friend"
He said he had called across the street to a friend a few minutes before saying he would meet him at the postoffice and go to a show. Questioning of this "friend" failed to better by denying having talked to Parocelli at all. He and his pal were released shortly before noon today.

Store Entered Through Rear
Entrance to the food store is said to have been used by a thief who stole a "jimmie" were found. The Boos car was stolen from its parking place at the city hall. Jackson said the thief came out of the rear of the store and ran to the rear of the store and ran to the rear of the store.

Snow Blindness
According to Sir Ernest Shackleton, the first symptoms of snow blindness are a running at the nose, then the sufferer begins to see double, and the sufferer begins to waver and then closes up.

The Garden
The kiss of the sun for pardon, The song of the birds for mirth, One is nearer God's Heart in a garden Than anywhere else on earth.

—Mrs. D. F. Gurney.

From an Englishman
I am sure Americans do not realize that the most British thing ever did was to rebel against and overthrow the tyranny of the English king and Parliament in 1776.

What Is Sand?
Each grain of sand is made up of the tiniest of tiny shells that were once the home of living animals. Before its life ended each of these animals built for itself a casket of exquisite beauty which left behind a mass of particles of the countless sands of the seashore.

Air Ambulances
There has been much talk about adopting airplanes to ambulance uses. A recent number of Je Sais Tout, the Paris magazine, states that a method of conveying the sick to hospital has been in practice for some time in Morocco.

The Third Estate
Schreeman: "He was a wise poet who remarked that in this world a man must be either anvil or hammer."

And It Still Goes On
I can say without offense today that which called out the most angry feelings and the hardest language 25 years ago. I may doubt everything today if I will only do it civilly.

Oliver Wendell Holmes in 1852.

What Is Amber?

Amber was originally generated from a species of pine and fir tree. As the gum oozed out of the trees, it flowed down the roots, where it lay in large deposits. A forest undisturbed for centuries would produce extensive fields of this gum.

More and better houses. Curbing the rent
collier.
Open roads in the county 365 days a year.
Market pavilion and community house.
Home and club for working girls.
More parks and playgrounds.
Better street car service.
Make the city a place of welcome to visitors
and new residents and for their exploitation.
Pave streets as fast as possible until all
are done.

This day in 1794 James O. Andrew was born.
He was later a bishop of the Methodist Episcopal
church and over the question slavery, the church
divided into the M. E. church and the M. E.
church South. Bishop Andrews owned slaves and
was over his slaves that the controversy started
ultimately in the division of the church.

CONGRESS IN THE FIRST DISTRICT.

There appears to be deep concern over a
campaign for congress in the First district by
the efforts of Mr. La Follette. It has been expected
that Henry A. Cooper would attempt to stage a
come-back into public office. He keenly feels
that he should have the support of the element
which is managed, bossed, driven and stampeded
the senior senator from this state. Mr. Cooper
has been so long in congress that he is quite lost
inside the hall of the house of representatives.
He also has felt undoubtedly that he was the
logical and only candidate for Mr. La Follette to
oppose. Still, a political life is made up of bitter
appointments. And it is with Mr. Cooper just
now.

News comes from Kenosha by way of the Ke-
nosha News, that Robert Verne Baker, recently
priced as a La Follette candidate for delegate
from the district to the national convention, has
been picked as the La Follette candidate. Mr.
Baker led the ticket in the district but fell out
of the breastworks. He now is to have the
benefit of a congressional nomination and be given
a certificate of character by the senatorial boss.
Besides Mr. Cooper there is also the case of Judge
na, of Beloit, to consider. He has been ac-
cused as having congressional aspirations
and has had reason to believe that Senator La Fol-
lette was favorable. But the action in reference
Mr. Baker seems to have eliminated the Rock
county judge entirely, for the time being, unless
breaks out of the corral.

All this is being done that there may be some
of sufficient strength to make a contest
against the Hon. C. E. Randall, the present in-
cumbent. Mr. Randall has made a good con-
gressman. He has not wasted the time of con-
gress in noise. He has been a worker and has
done for those things which have made for econ-
omy and is now a part of the splendid record of
the house of representatives. As for the district,
he has been no duty too onerous or labor too
ard for either the district as a whole or the mem-
bers of his constituency that Mr. Randall has not
been willing and pleased to undertake.
It is a considerable time before the primaries
and many things may happen, and Mr. Randall
has not yet formally announced his candidacy for
second term. The La Follette followers have a
problem to solve in gaining the district, and that
may account for the running to and fro of the
past week. It appears though that whatever is
one, Henry Allen Cooper is to be split by the
La Follette leaders.

SENATOR PHILANDER KNOX.

It is to be regretted that Senator Knox has been
right out as a candidate for the presidency by
Senator Penrose. Either justly or unjustly. Sen-
ator Penrose is held as representative of all that
is the worst in politics, and in the republican
party all that is unprogressive and that may
and for corporate influence and the hide-bound
and bourgeois sticking to party fetters under
any and all circumstances. So he has come to
represent that part of the political organization
known as "stand-pat," "reactionary" or "ultra
conservative." Therefore it is not at all likely
that the candidacy of Senator Knox will be hailed
with joy except on the part of others who are like
Mr. Penrose. Among the able men of the senate
today, Senator Knox well stands as the ablest.
He is a great international lawyer. He is a far-
sighted statesman. He has a peculiarly broad
vision in domestic affairs. He has backbone, and
when the treaty of Versailles was first presented
the senate, was honest enough to stand alone
and say that it was unjust and wicked. Time has
shown him to be right. It has been kept inviolate
by none of the signatories, to the letter of the
treaty, and never can be. It is, as Senator Knox
said, impossible.

No man in the race for the presidency can
reach to the height of statesmanship of Senator
Knox. Therefore, it is political tragedy when one
looks at him as a candidate and gets a first view
of the bullying Penrose. The elimination of Sen-
ator Harding by the vote in Ohio, left Penrose
without a candidate. He had to select someone;
and he picked Knox. If Penrose, acting in the
role of Jonah, could be thrown overboard, there
might be hope for the Pennsylvania senator's re-
viving the vote of the delegates who place indi-
vidual greatness of statesmanship above factional
ties or political ambition.

ABOUT WRITING HISTORY.

The distinguished member of the county board
who does not think newspaper men are capable of
writing history has probably never read Lloyd
bombs' book on the late war, Simonds' war his-
tory, or earlier, the story of the battle of Manila
by cable from Hong Kong by Harden, a correspond-
ent, and which remains today the classic
story of that conflict. He perhaps has not heard
McGahan, the undoubted correspondent of the
Lansdowne whose story of Shipka Pass
and Plevna are the foundations for all historical
counts. He may be uninformed of the details
of the Russo-Japanese war and the history by
Harr, which written from day to day out of the
trenches in front of Port Arthur, stirred the blood
of a world. It was the first time in warfare that
the trench had been used in that manner and in jour-

was the example at Port Arthur that Germany
followed in North France. This was of some
historical value and the record was written by a
newspaper man.

There are other histories and records, too—a
library of them which may have escaped the
notice of the member. When it comes to a dry-
as-dust record such as the book agent frequently
sells and later gets into the second-hand book
stores and was sold originally only because the
purchaser could find his name there—books which
fill wall space and which the government gets out
by the bale and are only good for shaving paper,
the newspaper man is not competent we admit.
That needs one of those "scholarly" writers sug-
gested to the county board.

TIME NOW FOR A POLICY.

Mexico presents the most interesting situation
of the last ten years. The revolution against
Carranza is almost nation-wide and the tenability
of office by the president is evidently a matter of
days. When it has been completed and the revolt
has succeeded in driving Carranza from Mexico,
if he is able to escape alive, there will be the same
chaotic condition that followed the elevation of
Huerta and later the disposal of that assassin and
the beginning of the rule of Carranza. Our inter-
est in Mexico is that a stable government should
be established. We have had no policy, either
by Mr. Taft or Mr. Wilson, looking to that end.
We have watchfully waited the murder of Amer-
icans, the stealing of property, and every indignity
on our citizenship possible, without anything be-
yond abortive protest. It would appear to be
time now for some definiteness. Without regard
for collateral things, such as oil rights, concessions
to corporations and other reasons given as to why
we should not intervene, longer continuance of
the Mexican revolution and reign of banditti, is
not to be tolerated. Had the Turk put upon us
the same conditions confronted by Americans in
Mexico, we would have had an army of half a
million men over there in Asia Minor settling the
Sultan's future, with all the administration
claqueurs supporting it.

The Literary Digest's poll of presidential choice
shows Gen. Wood leading with 75,835 votes, and
Herbert Hoover second with 62,420. Hiram John-
son is third with 60,410. The remarkable thing is
the Hoover vote. Apparently a great many peo-
ple think he would make a good president.

That California Bluebird confesses that he
laughed when he killed any one of his twenty or
more wives. We propose that the United States
accept a mandatory for Turkey and present the
Californian with the sultan's throne.

The rum rebellion has been transferred from
Iron River to our own beautiful Hurley, where
the city was built of saloons surrounded by a few
more saloons, and these by other places where
liquor was sold.

When the anti-saloon league endorsed Lowden,
it was received with mingled feelings of wonder
as to whether it was an asset or a liability. But
Lowden did not carry Chicago, anyway, so why
worry?

Having been deprived of the Sazerac cocktail
and the Ramos gin fizz, New Orleans undoubtedly
wants some more excellent drink. That is why
she turned to Rock county milk.

Attorney General Palmer has shown about as
good judgment on sugar as he did guessing at the
May Day outbreaks of reds. The general shows
symptoms of color blindness.

Governor Philipp and La Follette have joined
hands across the schooner in advocating a beer of
larger voltage. "It's always fair weather when
comrades get together."

Lloyd George says he is satisfied with the San
Remo conference. But it took a lot of Asiatic
territory to give him this comfortable feeling.

Maybe the reason congress does not like Louis
Post, the assistant secretary of labor, is because
he looks like Lenin and acts like Trotsky.

That Nebraska man who died at the age of
126, evidently gave up after it became sure Bryan
could not be president in 1921.

Germany is afraid she will never get the watch
on the Rhine out of pawn. What is America do-
ing with the watch anyway?

La Follette is for Verne Baker for congress in
the First district. Wonder how he is to square
himself with Mr. Cooper?

The name Ukraine sounds like a disease any-
way, and with the fighting going on there all the
time it has become chronic.

Perhaps the Madison contractors settled the
strike in the building trades there when potatoes
went to \$6 a bushel.

If the price of paper keeps going up, those tons
of soviet money may yet be worth something in
Russia.

With all the May day strikes called the removal
of the overalls movement has been greatly stim-
ulated.

Mr. Palmer could probably see the rising cost
of sugar if it could be colored red.

Mr. Hiram Johnson may not be pro-German,
but all the pros are for him.

If Wilson wants an issue why shouldn't it be
"He kept us out of peace."

"Pussyfoot" Johnson even crossed the ocean
without getting wet.

State and Nation Press

"We are some farmers," said a West side lady
on Monday. "You should see the half hundred
chicks we have in the bathroom, but we will take
them out to the farm right away. You see we
can move them in the limousine which is nicely
heated." That's farming de luxe.—Eau Claire
Leader.

There are said to be four thousand illicit stills
in Chicago. And here we had been thinking that
Langlade county had been acquiring some repu-
tation as an exporter of "moonshine."—Antigo
Press.

JUST FOLKS ABOUT STORMS

By FREDERIC J. HASKIN.

MOTHER'S DAY.
Let every day be Mother's Day!
Make roses grow along her way
And beauty everywhere.
Oh, never let her eyes be wet
With tears of sorrow or regret,
And never cease to care!
Conquer grief, and grief and joy
That you can hear your mother's voice!

A day for her! For you she gave
Long years of love and service brave,
For you her youth was spent;
There was no weight of hurt or care
Too heavy for her strength to bear.
She followed when you went,
Her courage and her love sublime
You could depend on all the time.

No day or night she set apart
On which to open wide her heart
And welcome you within;
There was no hour you would not be
First in her thought and memory,
Though you were black as sin!
Though skies were gray or skies were blue
Not once has she forgotten you.

ON THE SPUR OF THE MOMENT

SPUR OF MOMENT—A SLICE OF LIFE.
Why is it
That when you have
A Groch
And want to drive a nail
That you take the said nail
Firmly between thumb and
Forefinger,
And seizing a battered, worn-out hammer,
You
Hit the nail on the head
As clean as a whistle
Or a hound's tooth,
Or whatever else is really clean,
And drive it into the plank,
And in the doing
You lose
Your Grouch.

And, on the other hand,
Why is it
When the joy of life
Is bubbling through your veins
And you want to drive a nail,
That you take said nail
Firmly between thumb and
Forefinger,
And seizing a smooth, well beveled hammer,
You
Give it a flourish in the air
And drive it down on the nail,
And, instead of hitting the nail on the head,
You smash your thumb,
And in place of the
Joy of life
That bubbled through your veins,
A Grouch advances and
From your lips there comes a
Stream of language
You never learned at Sunday school.

In the words of
C. Henry Frisch,
"Taint right."

A general strike has been voted in Spain. If
some of the generals in Germany would go on
strike, perhaps the country might recover.

Men's trousers are being cut with the flask
flare, i. e., with more fullness about the hips.
However, it's just as well to remember that
there's many a slip between the hip and the lip.
In the face of the eighteenth amendment, tailors
have done what they could to accommodate the
demand for storage facilities. Even even with
most skillful fitting it is next to impossible to
maintain an innocent front with a bulging rear.

ANOTHER POET IS BORN.
We are delighted to receive and publish the
following gem which appears on the Dille Bar-
ber Shop posters:

MR. TAKE.
Those other men
Took me in with their eyes
And I said I knew them,
And I knew
What they thought of me.
But you came
And did not love calm
To give me your eyes,
But took me in with your arms
And I called you
"Surgeon!"
—C. Elythe Sherwood.

HAVE YOU A LITTLE PEACH IN YOUR BACK?
A cold wave has just killed three-fourths of
the Georgia peach trees. Let's see, a cold wave
killed nine-tenths of them last year, and three-
quarters this year. The supply of Georgia
peaches is always large, however. Guess they
raise 'em on grape vines or something.

OPINIONS OF OTHERS

The female factor in politics is expected to
counteract the malefactor.—Norfolk Virginian
Pilot.

No opo cyres for a mandate for Armenia.
Tigre are No oil wells in Armenia.—Syracuse
Post Standard.

If anybody got left out in the distribution of
Asia Minor, it was an accident.—Philadelphia
Public Ledger.

The trouble about competitive building is that
a dreadnought is always obsolete by the time it
is finished.—Birmingham Morning Sun.

The senate might be worse. It didn't kill
America's two big leagues.—Cleveland Press.

Well, we see that scientists who know all
about atoms and molecules have decided that
the smallest thing there is is the quantum. Which
as we had supposed it was the camisole.—Grand
Rapids Press.

LOOKING BACKWARD

FORTY YEARS AGO
May 3, 1880.—Bishop Welles of Milwaukee
visited the Episcopal churches of this city yes-
terday morning. In the morning he preached
a sermon at the Trinity church, and after the
sermon, a class of eight young people were con-
firmed. In the evening, he talked at the Christ
church. One person was confirmed there.—A
little boy, the son of Mike Brininger, was stepped
on by a horse yesterday and hurt quite badly.

THIRTY YEARS AGO
May 3, 1890.—The coal and wood sheds be-
longing to Blair and Gowdwy were destroyed
this morning by fire. They are at 324 West Mil-
waukee street. The warehouse of T. Wilcox,
on the west, also caught and a good deal of
damage was done to it. The sheds of Smith and
Gately had a narrow escape, but were saved, due
to the prompt work of the fire department.

TWENTY YEARS AGO
May 3, 1900.—The public schools will have
programs tomorrow to celebrate Arbor and
Bird day. A valuable horse belonging to E. B.
Helmstreet, got cast in its stall in the heavy
last night and fractured one of its legs. It had
to be shot this morning.—Charles T. Pelroy was
made president of the Schenck Wisconsin
Dental association at its meeting here yesterday.

TEN YEARS AGO
May 3, 1910.—The Lakota club will hold a
banquet this evening at the Grand hotel. Covers
are being laid for forty. The teachers for the
coming year on the grade and high schools were
chosen at the meeting of the Board of Educa-
tion last night. Nearly all the teachers were
re-appointed. No change was made in the sal-
ary schedule.

Washington, May 3.—This spring
has been unusually productive of that
peculiar American weather phenom-
enon known as a tornado. It is the tor-
nado and more popularly called a
cyclone.

The two groups of storms
which have filled the front
pages of newspapers have both been
characterized by tornadoes, and in
both cases it was the tornadoes that
did the damage. One of these
storms, or storm groups, ravaged
the middle west in the vicinity
of Chicago and the other struck the
central states in Arkansas and Ten-
nessee. In each case the Weather
Bureau was able to warn the people
that a storm was coming, but it
could not predict that tornadoes
would accompany them. It is this
which makes the tornado an es-
pecially deadly thing. It is not
predicted, and after it starts it
moves too rapidly for warning to
be sent ahead.

Tornado Forms Suddenly
The tornado, which forms at the
cloud level, suddenly descends to the
earth, dashes across the country
chewing up everything in its path,
leaving no evidence of its passage
except a block in the road, and then disappears.
It is a marauder which gives no
warning and works with lightning
speed. It is a phenomenon which
gives such an impression of
deadly power and malignant in-
tent, and none which causes more
fear.

The term cyclone, which is com-
monly applied to these winds, is al-
together wrong. A cyclone is prop-
erly defined as a low pressure area
of air in a counter-clockwise di-
rection about a center of low pressure.
Such cyclones are constantly moving
across the face of the earth, and
cause winds of any violence, and a
cyclone, or cyclonic movement, may
be half as wide as the continent.
You can easily see by looking at the
diagram of one of them on the daily
weather map sent out by the
Weather Bureau. A cyclonic move-
ment usually brings either wind or
rain or snow, but not necessarily any-
thing worthy of the name of a storm.
It may bring merely a dull, muggy
spell, or to the warm moist air of
which it is composed. It is usually,
though not always, followed by an
anti-cyclone, which is a similar air
mass moving in the opposite direc-
tion—that is, clockwise—and carries
cold heavy air with it. The anti-cyclone brings the cool
and sunny weather, and the storm
is generally characterized by clear
and bracing weather. The alterna-
tion of cyclone and anti-cyclone
have caused the characteristic variations of
the weather throughout the eastern
United States.

Have You Understood Weather?
To understand these movements is
to understand the weather as well
as a layman can. It is chiefly by
watching these great main move-
ments of the air that the Weather
Bureau predicts what is going to
happen. If it sees a cyclone ap-
proaching it knows that when it
reaches a certain point there will
probably be rain or a high wind
there. It can predict the character
of the weather pretty well by its re-
sponse as to what the cyclone is doing
in other parts of the country. But
sometimes the cyclone slightly
changes its path, or slows up, and
other than 12 or 24 hours be-
hind time. In that case the weather
forecast for a given locality is
wrong. The layman leaps to the con-
clusion that the weather forecaster

does not know his business. But as
a matter of fact the forecaster pre-
dicts correctly most of the time.

Tornado Is By-product
The tornado is a sort of by-product
of the cyclone, and one which is pro-
duced only at long and irregular in-
tervals. It usually originates on the
southern side of a cyclone and near
the center. For instance one of the
great cyclones may be moving across
the middle west, as one does every
week or so. It may produce moder-
ate winds, thunderstorms and rain.
But somewhere near its center two
air currents strike each other going
in opposite directions. They tangle
up and go round each other.

The whirl made by these two
winds, struggling with each other like
enchanted waters, originates usually
at the cloud level. It moves down-
ward, and usually strikes the earth
in the shape of a vortex of air, which
has terrific speed and power. Some-
times it does not strike the earth at
all. Sometimes it strikes the earth
and rebounds again without doing
any special damage.

Tornadoes Are Infrequent
The difficulty of forecasting torna-
does is that they are so rare. They
produce a tornado, and a cyclone ac-
companied by a thunderstorm is
more apt to produce a tornado than
any other weather phenomenon.
Tornadoes on the other hand, are
only a small percentage of cyclones
produce tornadoes. A continual pro-
duction of cyclones fall across the
country, often at the rate of one
every week or so, and yet a whole
year may go without a single tor-
nado. This is because the storm must be
of a certain type, and in a single season, as
has happened this spring.

So the tornado remains the mys-
terious devil of the storm world. The
Weather Bureau predicts floods with
great success and it issues warnings
against tropical cyclones, but the tor-
nado almost invariably takes the sci-
entists by surprise.

Real Cyclones in Tropics
The tropical cyclone is a real cy-
clone. That is, it is the same sort of
thing as the ordinary cyclonic air
movements which bring most of our
storms here in the eastern United
States, but in the tropics these storm
movements are smaller in circumference,
incomparably greater in strength and
fortunately much less frequent in oc-
currence. They may not be called
hurricanes in the China Sea, ty-
phoons in the Philippines, but in the
Indian Ocean region they are
generally known by their correct
name of cyclone.

Thus the true cyclone is found
practically everywhere in the world,
and it becomes a deadly thing in all
tropical regions. The tornado, on the
other hand, is a purely American in-
stitution, for it is found only in the
United States, east of the Rocky
Mountains.

COTTON CLOTH MILLS CRIPPLED BY STRIKE

New Bedford, Mass., May 3.—A
strike of approximately 20,000 opera-
tives went into effect at 2 p. m. today.
The loom fixers struck several weeks ago
and their protest received the support
of the textile council which or-
dered today's general strike.

The cloth mills affected are
operated by 18 corporations with a
total payroll of \$67,000 and
having 50,317 looms and 1,266,662
spindles. Three companies, the
Nashawena, the Passaic and the
Beverly, were not involved as the
owners have not posted in their mills.
The New Bedford Cotton Manu-
facturers association has refused to
grant a conference which the work-
ers council requested, on the ground
that the strike was of the workers'
own creation.

GIRLS MAN HOTEL - AS WAITERS STRIKE

Chicago, May 3.—The Chicago
Hotel Men's association declared to-
day it would strike the hotel and
striking union waiters and cooks.
Non-union employees, chiefly girls,
were being used by the hotels.

The central labor council of the
Chicago Federation of Labor adopted
a resolution to call out all union em-
ployees from non-union restaurants
and hotels to aid the waiters and
cooks.

C. G. Sagerstrom, business agent
of the ice wagon drivers, announced
members of his union had been
granted increases retroactive to
March 1.

"We have warned the employers
that if they attempt to raise the
consumer we will strike," Sagerstrom
said. "They will make a reasonable
profit under the new scale."

Union Grove.—Chas. H. Ford, cloth-
ing store proprietor, is looking for
the burglar who stole a suit of clothes
and carried away all suits of this size.
The burglar was seen carrying a
sack of number 11 size.

Abe Martin
In spite of all awful prices, Scar-
city of material and the conditions
prevailing in general, we haven't heard
a hush about our business. It's been many
a woman's movement caught on like the chimney.

FRANCE PUTS TABOO ON AMERICAN CARS

[BY ASSOCIATED PRESS.]
Paris, May 3.—Dealers in Amer-
ican automobiles believe their busi-
ness in France will be completely
wiped out by the governmental de-
crees issued Wednesday forbidding
importation for an indefinite time of
all chassis weighing less than 5,000
pounds. Under the ruling of the
government only the heaviest of
trucks can be admitted to France
from foreign countries.

In spite of high customs and the
unfavorable state of foreign ex-
change, sales of American cars have
shown an encouraging increase in
France. Nearly all the American
automobile firms have branches in
this city and managers say nothing
remains, apparently, but to close up
shop as all they can do is to main-
tain service and make repairs on
cars already sold.

Engineer Veterans of World War Organize

Big Family Shoe Store
223 W. Milw. St.

Making 9=23

THE number of motor vehicles in use
in the United States during 1919
increased 23.2 percent over 1918.
For the same period the production of
gasoline increased only 9 percent.

To supply gasoline for the greatly in-
creased fleet of motor vehicles is the prob-
lem confronting the petroleum industry.

To date, the solution of this problem has
been possible by reason of the reserve
stocks on hand. This bulk storage has
served as an expansion and contraction
factor to keep supply equal to demand.

In the 11 states it serves, the Standard Oil
Company (Indiana) maintains 3780 bulk
storage stations where stocks of gasoline
are carried sufficient to meet the normal
demand, with a reserve for almost any
emergency.

Had it not been possible to keep this trem-
endous reserve in the field, thousands
of motorists would have been unable to
operate their cars during the late trans-
portation troubles.

This equipment, representing an invest-
ment of millions of dollars, is managed by
alert men, trained to serve you. So far
it has proved itself equal to any demands
made upon it.

The foresight of the men responsible for
the operation of the Standard Oil Company
(Indiana) has enabled them to estimate ac-
curately the probable needs of the motorist
for gasoline, and they have located bulk
and service stations at convenient points
throughout the territory, where the needs
of the buying public can be supplied
quickly and easily.

This emphasizes the benefits derived by
the public from the efficiency of a
company as big as its job.

TWO VICTORIES FOR
SAMSON VS. PYOTTLocal Nine Wins Yesterday
1 to 0, Saturday 5 to 3;
DuMont Shows Great.

Playing in mid-season form, despite cool and handicapping weather, Samson Tractor baseball team topped two wins from the Pyott factory team at Chicago, Saturday and Sunday taking the Saturday game 5 to 3 and yesterday's battle 1 to 0. The test showed that the Janesville ball players are going to put up some of the classiest games of this part of the country and augers well for the three game series starting next Friday to open the season at the fair grounds here.

Featured by the appearance of two former White Sox pitchers in the box opening each other, Lathrop for Janesville and Benz for the Chicago team, and marked by four home runs, Saturday's game was on the order of big league stuff. "Red" permitted only one hit in eight innings. In the ninth two base hits and a short fly over the left field fence gave Pyotts their three counts.

Samson Makes Three Homers
Samson got the range of that short left field fence on Saturday, with the result that Lathrop, Art Schwind and Holland each scored a homer. These three men are in great hitting form and when Perring, Brock and Lathrop get their old sticks going in their old style, the Tractors will have a heavy battery of sluggers.

Lathrop, pitching his full gamut of the season, looked mighty sweet to Samsons on the mound. He appears now to be the real stuff for coming games.

Sunday's game developed into a pitching duel between Dumont of Samson and Bacheloy—that funny delivery chap—of Chicago. Perring cracked a double, permitting no Chicago runner to get beyond second base and allowing only four hits, and Lathrop singled scoring Perring. Bacheloy tightened again and struck out the next man.

Yesterday's contest was remarkably fast for a cold miserable day, being played in an hour and twenty minutes. The bad weather kept the crowd down.

LEWIS TAKES OVER
GYM FOR TIME BEING

Elmer Lewis, assistant boys' work secretary of the local "Y" will assume charge of the work of the physical department following the departure of W. Porter Craig, former director. He will continue the classes in gymnastics, keep the grammar school and chess leagues going, and make arrangements for the summer work. His position, however, is only temporarily to fill in until a successor to Mr. Craig is procured. Attention now is being given to the formation of an industrial-baseball league, further announcement of which is expected to be made in the near future.

For the purpose of re-investing the money in common stock of the Fifield Lumber Co., made necessary by the present expansion of its business, I offer for sale 500 shares of Fifield Lumber Co. 7% Preferred Stock, par value, \$100.00 per share. Interest payable semi-annually. This stock is preferred both as to assets and dividends and will be sold in denominations of \$100.00 and up.

ALL-STARS OUTPLAY
FAIRIES; WIN, 14-10

Featured by the heavy hitting on both sides, the Janesville All-Stars defeated the Fairy Apprentices of Beloit in the opening game of the season here yesterday, 14 to 10. The game was a cinchy one for so early in the season, the style of play being shown in the number of errors made, four by the Stars and five for the Fairies. In hitting, the All-Stars made 14 safe bingles, the Fairies 11. "Poke" Graesslin, starting for the local boys, pitched six innings in good style allowing but eight scattered hits and walking two. Then he blew, and the Fairies made four runs and tied the score until Charlie Bick went in as relief.

Edwards Strikes Out Ten
"Buck" Edwards opposed Graesslin and Bick on the mound, sending 10 All-Stars to the bench via the strike out route. Bick was way off form when he started or the relief in the seventh forcing three men on passes. In addition he was inclined to be wild, but soon settled down to steady work.

Fielding—honors went to Captain Graesslin of the Stars who made two hair raising catches one on a head-long dive. "Speck" McGinley drove out two doubles out of five trips to the plate. Puschke of the Fairies led the hitting of the day, piling out a double and two singles in five times at bat.

GRAIN

Chicago Review.
Chicago, May 3.—Unsettledness as to whether the harvest of the 1920 crop would not mean production seriously below normal had a decided bullish effect today in the corn market. Comment that Chicago grain receipts were down to the point of tendering to the market, and that the market was light and shorts especially were buyers. Opening quotations, which varied from unchanged figures to 1 1/2 higher, with July 1 1/2 to 1 1/8, and September 1 1/8 to 1 1/8, were followed by material upturns all around.

New record prices were reached by oats. Scarcity of supplies readily available for delivery on May contracts was a factor in the market. After opening 14 1/4 to 14 1/2, including July at 14 1/2 to 14 1/2, the market continued to rise. Demand for meats was lacking, and, however, scored a fair advance. No important setbacks took place. The market closed nervous, 2 1/2 to 1/2 higher, with July 1 1/2 to 1 1/8, and September 1 1/8 to 1 1/8.

MEXICO IS SICK OF REVOLT, - FALL

Senate Investigating Committee
Completes Report of
Border Affairs.

BY DAVID LAWRENCE.
(Copyright 1920 by Gazette.)

Washington, May 3.—Senator Fall, New Mexico, head of the subcommittee of the senate which has for several months been investigating the Mexican situation, is back in Washington with his report virtually complete. He has just spent many weeks on the border and brings back with him an interesting picture of conditions across the Rio Grande as obtained from Mexicans and Americans some of whom testified publicly and others privately and had our government at no time recognized the Carranza government are quick to take advantage of the outbreak in Sonora and the result is that through out the republic with few exceptions the country is in revolution.

Carranza's Strength in U. S.
"I think that had the senate passed any resolution which would have recognized the Carranza government as I proposed several months ago we would be now in a better position to deal fairly with all factions. The Carranza government wouldn't stay in power 24 hours if we withdrew recognition."

Has No Preference.
"I have none," was his reply. "If General Obregon or even Carranza himself were to enter into an agreement without government guaranteeing the obligations which we have long seen unfulfilled. I personally would not object to our government helping Mexico through either one. But we must not extend recognition again without being sure that American interests will be fully protected."

Italy Inherits New Slav Troubles As Request of War

Trieste.—Italian military authorities here say they have inherited from the war a lot of difficulties and problems in controlling the Slav population in Italy and the Italian army is now being retrained to deal with the new situation. The Italian army is now being retrained to deal with the new situation. The Italian army is now being retrained to deal with the new situation.

SAILING FROM SYDNEY RECALLS EARLY DAYS

Italian Steam Navigation company.

The intention of the company was to run six vessels "Via Panama," the Panama canal, capitalized at \$7,000,000, being the connecting link on the then undivided isthmus with the West India Royal Mail Steam Packet company running from Southampton.

HOW TO RAISE BABY CHICKS

Put Avicol in the drinking water.

Most people lose half of every hatch, and seem to expect it. Chick cholera or white diarrhoea is the trouble. The U. S. Government states that over half the chicks hatch dead from this cause.

It is nothing to try Avicol. If you don't find that it prevents and cures white diarrhoea, chick cholera and all bowel diseases of poultry, tell us and your money will be refunded. You can send 25c or 50c today for a package by mail. Burrell-Dugger Co., 219 Columbia Bldg., Indianapolis, Ind.

AVICOL stops chicks dying

YOUNG AND YOUNG

YOUNG AND YOUNG

YOUNG AND YOUNG

It reached your eyes— Did it reach your HEART?

You've seen the Interchurch advertising. In newspapers. In magazines.

You know that 30 great denominations are co-operating in a world plan to make each church and each denomination render bigger, broader service for all mankind. You know something of the needs that must be met—

—More and better hospitals
—More and better Christian schools
—More doctors abroad
—More teachers abroad
—A living wage for ministers
—Americanization
—Meeting the rural problem
—An expanding program in our American cities
—An adequate program of EVANGELISM for the whole world
—To make the spirit of Jesus dominant in our national and world problem and program.

You've read of this—It reached your eyes, but has it reached your heart?

Millions of members of our churches have already responded. Generously! The response is growing every day, every hour. But hundreds of thousands who are not connected with the churches, but are friendly to the EVANGELISTIC and PHILANTHROPIC program of the churches, have not been reached—hence, this direct appeal.

If you have not been asked to give your share to this, God's work for mankind, give now and give from your heart.

NOW!

Give now. Don't wait longer for a canvasser to call. You need send no payment now—your promise will be sufficient.

Please fill out the pledge below. Give the maximum amount according to your ability to give or as you have been prospered—this has meant thus far amounts ranging from many hundreds or thousands per month down to \$50.00 a month, \$25.00 a month, \$5.00 a month, \$1.00 a month—even the smallest amount will help carry on the great work of the KINGDOM of God just that much further. Write your address plainly and mail the pledge below today.

INTERCHURCH WORLD MOVEMENT

The publication of this advertisement is made possible through the co-operation of 30 denominations.

Tear off and Mail TODAY!

In recognition of the goodness of God, I want to assist in making possible the enlargement of the Missionary, benevolent, educational and philanthropic work of the CO-OPERATING CHURCHES IN THE INTERCHURCH WORLD MOVEMENT.

And I hereby agree to give, for one year only, May 15, 1920-May 15, 1921, the sum of \$..... which I promise to pay in

..... monthly installments, beginning May 15, 1920.

..... quarterly installments, beginning May 15, 1920.

..... payment in full by check herewith.

(Indicate by crossmark which method of payment you select.)

ATTEMPT TO END STRIKE IS FAILURE

Contractors Fail To Hold Hoped-for Meeting — One Firm Signs With Masons.

There was no special session of the Janesville Builders' Exchange Saturday night for the purpose of settling the building trades strike, now over 30 days long. Contractors, members of the exchange, after a conference with masons' wage scale committee, had declared that matters looked favorable for a resumption of work Monday morning and that an attempt would be made to get the exchange in meeting to consider settlement.

When efforts along this line failed one evening, and the masons again went into conference. It is said that agreement was reached and signed. The union then demanded that non-union men be taken off the jobs. The firm is said to have refused this. The masons did not go to work this morning.

Members of the Builders' Exchange explained the action of Madison Contractors' association in meeting the demands of the building trades and signing up at a higher scale than set here some weeks ago when contractors of Madison, Beloit, Monroe and Watertown met and decided on the limit of wage scales to be paid labor this year. The course at Madison was permitted on Friday following a conference a week ago Sunday of contractors from the five cities.

Settlements among various crafts and unions were pending with employers upon settlement of the carpenters' strike. Plumbers will receive \$1.25 an hour, bricklayers \$1.12 1/2, plasterers \$1.15, lathers, \$1 and sheet metal workers 85 cents an hour.

Locally the sheet metal men are the only craft back at work. They returned under a temporary agreement made with the bosses twelve days ago.

Beginning Saturday Madison contractors began charging \$1.50 per hour for carpentry work.

RUSSIAN RAIL SHOP FAR BEHIND IN WORK

(BY ASSOCIATED PRESS.)

Moscow.—Russian railroad shops, working at a maximum pace since peace, will require more than 10 years to restore normal traffic with the present facilities of production, according to a survey recently published in the Economic Life. The chief needs are shown to be the importation of rolling stock and the home development of the transportation industry.

The survey shows that in 1914 the number of locomotives was approximately 20,000 with 15 percent unit for use. The present number of locomotives is 10,000 with 50 percent out of commission or in need of repairs, and the number of cars 250,000. Lines in operation have also diminished about 20 percent.

The maximum pre-war production in the Russian shops was 3,800 locomotives and 40,000 cars annually, and the number that retired each year was 1,300 locomotives and 30,000 trucks. The present need is for 15,000 locomotives and 450,000 cars, 15 bushels to the acre.

Record Wheat Crop Is Expected in Manitoba

Winnipeg, Man.—The land planted to wheat in Manitoba this year is estimated by the department of agriculture authorities at 3,000,000 acres, and sowing up at a higher scale than set here some weeks ago when contractors of Madison, Beloit, Monroe and Watertown met and decided on the limit of wage scales to be paid labor this year. The course at Madison was permitted on Friday following a conference a week ago Sunday of contractors from the five cities.

Settlements among various crafts and unions were pending with employers upon settlement of the carpenters' strike. Plumbers will receive \$1.25 an hour, bricklayers \$1.12 1/2, plasterers \$1.15, lathers, \$1 and sheet metal workers 85 cents an hour.

Locally the sheet metal men are the only craft back at work. They returned under a temporary agreement made with the bosses twelve days ago.

Beginning Saturday Madison contractors began charging \$1.50 per hour for carpentry work.

WISCONSIN PARENTS CRITICISED FOR TOO LAX COMPANIONSHIP

(BY ASSOCIATED PRESS.)

Green Bay.—"Crime among children in Wisconsin is increasing, and parents, in my mind, are in a great measure responsible for this condition," said G. T. Harris, president of the state board of control, at a meeting of the board at the state reformatory here.

Mr. Harris said that investigation of a number of cases that came before the board has shown that children who were inmates of industrial schools, house of correction, and the reformatory were not to blame in a majority of the cases.

"If parents would keep an eye on

their children and make companions of them instead of telling them to run along and play there would be less need for industrial schools and reformatories," he said. "A large number of parents in these modern times do not see their children from one week to another, and then only for a short time. If home life is not made pleasant for them they will seek diversion outside the home and that nearly always leads to ruin."

Only 4 or 5 percent of youths who leave the reformatory violate their pledges to remain straight, according to Mr. Harris. Since the state board of control was organized, Aug. 1, 1907, until March 1, 1920, 1,233 prisoners have been paroled and only 135 of that number were returned.

"This," said Mr. Harris, "is the lowest percent of violators of any line in the union, according to statistics and speaks well of the prison rules and regulations of the state."

Clean Up—Paint Up—May 8 to 8.

POET OF FIUME IS WAITED UPON WITH COURT GALLANTRY

Fiume.—"This is the most interesting court in Europe," said one of d'Annunzio's secretaries at the luncheon tendered the poet on St. Gabriel's day, when the "Liberator" of Fiume acted his part with courtiers, soldiers and "king's guards" and the populace acted theirs.

Panfares of trumpets, the rush to arms of the "king's guard," announced his every entrance and exit. He is always accompanied by a long line of aides and functionaries and wears a happy countenance himself. At meals all the courtiers center their attention upon him and listen to the stories he tells, laughing sometimes

and crying at others. D'Annunzio's wishes in food are always complied with and religious zeal marks the efforts of the courtesans to please him. His uniform is always spic-and-span. There is not a blemish on his clothing from heel to crown. His long Italian cape sometimes calls to mind the familiar garb of the fallen William II in his German military cape.

On public occasions in theaters his place is reserved with much attention and when he enters cheers are given by the men and women who follow him. When he gives a concert in the palace, his place in the front row is respected with the reverence due to a religious chief. His apartments are bedecked with all sorts of presents from the townspeople, Italian and Dalmatian flags make up the color scheme. On his name day he was the recipient of showers of flowers from admirers in the city. The royal march greets him when he makes his appearance on the balcony of the palace.

LOAN ASSOCIATION STOCK BEING ISSUED

Certificates of stock and pass books are being issued by the Build-

ing and Loan association. It is expected that this work will be completed by May 10. The association has offices at the Chamber of Commerce.

FRIDAY
SATURDAY

The first day of this great sale was a record breaker in our Women's Ready-to-Wear Department. We not only served more people but we sold more garments on this day than in any one day since our Suit Department has been opened.

After thoroughly shopping in the various stores, the people were quick to realize the importance of the attractive bargains that we were offering, this is one of the reasons that this new sales record was established at the Golden Eagle last Saturday, May 1st.

Many more and just as good bargains will be offered tomorrow and all this week, therefore, if you have not yet attended the sale do so at your earliest possible convenience.
